

University of Split, Faculty of Civil Engineering, Architecture and Geodesy  
Department of Urban Planning  
Assist. Prof. Ph.D. **Hrvoje Bartulović**, M.Sc.Arch.

Hrvoje Bartulović began his academic career at the Faculty of Civil Engineering, Architecture, and Geodesy in Split in 2008. and he is currently an assistant professor of the Department of Urban Planning teaching several undergraduate (Urban planning 1 &2) and graduate courses (Spatial planning 1, Urban design, Integrated Environmental Protection). He was a mentor at a number of international student workshops and a commentator on more than 20 graduate theses.

He completed his Ph.D. at the University of Zagreb, Faculty of Architecture 2014. The focus of his research interest is the development of urban morphology and urban transformation of the city, with special attention to the development of the city of Split, which is on the UNESCO World Heritage List.

In addition to his dissertation, he published papers in journals, conference proceedings, and monographs, worked as a reviewer, and was a collaborator on several books. Four of the articles were published as original scientific papers. He participated in several papers in international scientific congresses, with five complete papers and two summaries published in proceedings.

He also participates as an organiser, coordinator, or a member in international and local cooperation and projects such as *Tempus*, *URBACT*, *Erasmus+*, and works on editorial boards, organisational committees of professional conferences, and committees of the local association of architects. As a practicing architect has worked on numerous professional projects with several realisations, mostly in public domain such as reconstruction of hospital ward, faculty laboratory, visitor's center, cultural center, etc. He participated in urban planning and architectural competitions with award-winning projects and worked on projects that included management strategies and plans.
