

Održana ljetna škola Split Summer School 2015 na FGAG-u !

Split Summer School 2015 took place at FGAG !

Od 27. do 31. srpnja na FGAG u Splitu je održana ljetna škola (Split Summer School – STSS) na temu „**Introduction to GIS with practical applications**“. Školu je poхађalo 11 studenata i inženjera iz Kine, Nizozemske, Slovenije, Bosne i Hercegovine i Hrvatske.

*The first Split Summer School named „**Introduction to GIS with practical applications**“ took place from 27thto 31thof July 2015 at Faculty of Civil Engineering, Architecture and Geodesy in Split, Croatia. Tge school was attended by 11 students and engineers from China, Netherlands, Slovenia, Bosnia and Herzegovina and Croatia.*

Predavanja i vježbe na STSS-u su održali: doc. dr. sc. Martina Baučić, Ivan Racetin, mag. ing. geod., Marina Tavra, mag.ing.geod. i Jelena Kilić, mag.ing.geod. Organizaciju su, uz već prethodno navedene, proveli izv. prof. dr. sc. Mirela Galić, Morena Galešić, mag. ing. aedif. i dr. sc. Vladimir Divić.

Lectures and exercises were held by: Assist. Prof. Martina Baučić, Ivan Racetin, mag. ing. geod. et geoinf., Marina Tavra, mag. ing. geod. et geoinf. and Jelena Kilić, mag. ing. geod. et geoinf. The events, along with the previously mentioned, were organized by Vice-Dean, Assoc. Prof. Mirela Galić, Morena Galešić, mag. ing. aedif. and Vladimir Divić, Ph. D..

Nakon tjedna predavanja i vježbi te rada na individualnim projektima, u petak, 31. srpnja su uspješno održane prezentacije završnih projekata. Polaznici ljetne škole su predstavili različite primjene GIS-a te su time prikazali korisnost njegove upotrebe u raznim stručnim i znanstvenim poljima. Po završetku prezentacija, prodekanica FGAG-a za međunarodnu suradnju izv. prof. dr. sc. Mirela Galić je polaznicima dodijelila certifikat za uspješno pohađanje ljetne škole Split Summer School 2015 - **Introduction to GIS with practical applications**.

*After a week of lectures, exercises and work on individual projects, the final project presentations were successfully held on Friday 31th of July 2015. The Split Summer School participants presented various GIS applications and showed the usefulness of thier use in a variety of professional and scientific fields. Upon completion of the presentations, Vice-Dean, Assoc. Prof. Mirela Galić awarded each participant the certificate for successful completion of the Split Summer School 2015 - **Introduction to GIS with practical applications**.*

U popodnevnim satima se krenulo u razgledavanje grada. Polaznici su imali priliku prošetati Dioklecijanovom palačom te zaviriti u njene najskrovitije djelove. Obožavatelji Igre prijestolja su imali priliku uživo vidjeti mesta snimanja scena njihovog omiljenog serijala.

In the afternoon, the group was taken to a sightseeing tour. Participants had the opportunity to walk through the Diocletian's palace and take a peek at its most intimate corners. The Game of thrones fans had the opportunity to see where their favorite characters filmed the scenes in the palace.

Nakon razgledavanja, i u želji za dobrom hranom, društvo se zaputilo u ACI Marinu. Uz predivan pogled na Split uživali su u izvrsnoj hrani i razmjenjivali protekla iskustva. Dekan FGAG-a izv. prof. dr. sc. Boris Trogrlić još se jednom zahvalio svim sudionicima te pozvao polaznike na promociju STSS i ponovni susret dogodine s temama iz područja: požarnog inženjerstva, vodnih resursa i inženjerstva okoliša, znanstvenih vizualizacija u inženjerstvu, konstrukcija povijesnih građevina, FEM/DEM metode, GIS-a te proračuna konstrukcija uz pomoć softverskog paketa SCIA Engineering.

After the tour, in desire for good food, the company went to the ACI Marina Split. With a beautiful view of Split, they enjoyed excellent food and exchanged summer school experiences. Faculty Dean, Assoc. Prof. Boris Trogrlić thanked all participants once again and invited them to promote STSS and reunion next year around topics related to: structural fire engineering analysis, water resources and environmental engineering, scientific visualisation in engineering, structures of historic buildings, FEM/DEM, GIS – selected topics and design of structures by SCIA Engineer.

Večer je završila izlaskom u noćni klub Bačvice. Ova prilika je stvorila nova prijateljstva kao i mogućnosti buduće suradnje. Uz učenje, druženje i zabavu je uspješno privедена kraju prva ljetna škola ovakvog tipa koja je ostavila optimističan utisak u još uspješniji budući razvoj.

Vidimo se sljedeće godine. Budi dio ljetne škole u Splitu. ☺

The evening ended in the nightclub Bacvice. New friendships have been built during the summer school, as well as opportunities for future cooperation. The first summer school of this kind was successfully completed through learning, socializing and entertainment and, leaving all its participants an optimistic impression for future development.

See you next year. Be a part of the Split Summer School. ☺

Split, kolovoz / August 2015.

Mirela, Martina, Morena, Marina, Jelena, Ivan, Vlado
