

## **BIOGRAPHY – Bendić Domagoj, mag. ing. aedif.**

I was born on September 23, 1998, in Split. I completed elementary school in Strožanac, and high school at the IV Gymnasium "Marko Marulić" in Split.

I enrolled in the undergraduate university study program of Civil Engineering at the Faculty of Civil Engineering, Architecture, and Geodesy of the University of Split in 2017. During my college, I worked as a student assistant for the Hydromechanics and Building Statics 2. I received the Dean's Award for Excellence in the academic year 2017/2018. Under the mentorship of professor Snježana Knezić Ph.D., on July 12, 2021, I obtained the title of Bachelor of Science in Civil Engineering.

In 2021, I enrolled in the graduate university study of Civil Engineering - Modelling of Structures Programme. During my studies, I worked as a student assistant for the courses Building Statics 2 and Dynamic Models of Earthquake Engineering. In the academic year 2021/2022, I completed a professional practice at VODOVOD I KANALIZACIJA d.o.o. I was awarded the Rector's and Dean's Awards for Excellence in the academic year 2021/2022, and the Dean's Award for Excellence in the academic year 2022/2023.

During the final year of my graduate studies, I was the president of the Student Council of the Faculty of Civil Engineering, Architecture, and Geodesy, as well as a member of the Presidency of the University Student Council of the University of Split. During the same period, I was a member of the Faculty Council. Additionally, I was a member of the Quality Promotion Board and the Commission on Student Affairs at the Faculty, and I participated in the work of the Quality Enhancement Council at the University, the Committee for International Cooperation, and the editorial board of the ST-open journal. Under the mentorship of professor Željana Nikolić Ph.D., on July 14, 2023, I obtained the title of Master of Science in Civil Engineering.

I attended conferences such as the "68th Geomechanik Kolloquium" (Salzburg, 2019) and Green Future (Split, 2022). I also attended numerous public forums and participated in the organization of the conference "ZAJEDNIČKI TEMELJI 2023. - uniSTem" and the first "Sajam poslova FGAG 2023".

In November 2023, I was employed at the Faculty of Civil Engineering, Architecture, and Geodesy in Split as a research and teaching assistant, in the scientific field of Civil Engineering, at the Department of Metal and Timber Structures, where I am still working. Shortly after my employment, I enrolled in the Postgraduate Doctoral Study program of Civil Engineering.

As a student of the postgraduate study program, I am a representative in the University Student Council of the University of Split, of which I was re-elected as a member of the Presidency for the academic year 2023/2024. Additionally, I am a member of the Administrative Council of the University Library in Split and a member of the Quality Enhancement Council of the University of Split.

In addition to my native Croatian, I am fluent in English. I have proficiency in digital skills including Microsoft Office programs (Word, Excel, PowerPoint, etc.), SCIA Engineer, IDEA StatiCa, Autodesk programs (AutoCAD, Robot Structural Analysis), SeismoStruct, and Seismospect computer programs, as well as smaller programs like Sigma-v1.0, GiD, Slide, and others. I have a driver's license for B category.
